AIMTEC

AFC Institute of Management and Technology has been established by Agricultural Finance Corporation Ltd (AFCL) with the objective of providing short autonomous courses of “Add-on” nature to basic qualifications of students which would enhance their knowledge and skill base and improve their preparedness in the work environment.

AFCL

Agricultural Finance Corporation Ltd. (AFCL) is a leading Consultancy Organization in India with more than four decades of experience since 1968. It is an organization promoted by the Indian Banking Industry comprising Commercial Banks, National Bank for Agriculture and Rural Development (NABARD), and EXIM Bank for the purpose of stimulating institutional credit in the rural sector by providing a broad spectrum of consulting services.

India has the largest youth population in the world. Its human resources are its greatest asset in the 21st Century. However acquisition of the right skills by the youth alone can make India one of the developed nations of the world by 2020 as envisaged by former President Dr A P J Abdul Kalam. AFCL has dedicated itself into Human Resource Development to train the youth of the country by Distance Education mode by offering a variety of market driven courses to supplement their basic qualifications through distance education mode. These carefully crafted practical courses would be responsive to the needs of industry, service sector etc. For this purpose it has established the **AFC Institute of Management and Technology (AIMTEC)**.

INTRODUCTION:

The **Clean Development Mechanism (CDM)** is an arrangement under the Kyoto Protocol allowing industrialized countries with a greenhouse gas reduction commitment (called Annex B countries) to invest in projects that reduce emissions in developing countries as an alternative to more expensive emission reductions in their own countries.

DISTANCE EDUCATION PROGRAMME IN CLEAN DEVELOPMENT MECHANISM (CDM)

With the objective of building up a pool of quality professionals in the field of Clean Development Mechanism or CDM as it is popularly known, the AFC announced introduction of Diploma course in CDM through distance education.

STRUCTURE OF THE COURSES

The contents of the course have been designed by the AFC in consultation with the Experts in the discipline. The study material will be self-instructing with suitable theoretical and practical assignments to enable the candidates to have adequate inputs.

TARGET GROUP

Diploma Course in CDM has also been launched to meet the needs of the field level professionals to enable them become vibrant members of any Consultancy/ Company/NGO, etc.

SCOPE OF EMPLOYMENT FOR THE CANDIDATES/PARTICIPANTS OF THE PROGRAMME

Tackling Climate Change is the prime concern of the Governments world wide. Market-based mechanisms like the CDM will be key to achieving this. The CDM has experienced rapid growth in recent years, beyond expectations. The World Bank reckons the CDM has prompted investments of about \$59 billion. At the moment, there are over 3,000 CDM projects in progress, according to the World Bank. However, there is lack of specialized CDM experts. Considering this a course has been designed to reducing the yawning gap of demand and supply of CDM experts.
